

PARKING TALK

with **KARABO**

OCTOBER 2022

TO APP OR NOT TO APP

That's a question which is bandied around a lot in the parking management industry. So is a parking app a good investment or just a nice-to-have?

It sometimes feels as if there's an avalanche of apps coming at customers – apps for almost everything – from fitness to fasting, from news to dream techniques – the range is huge.

Do customers want yet another app to help them park in your parking garage? At Karabo we believe top-quality equipment, well-trained on-site staff in our smart branded uniforms, and a committed management team, can provide an optimum and easy parking experience for your customers.

Plus, we offer ticketless, cashless parking options and payment using any bank card - without the need for yet another app!

OUR EARLY BIRD PARKING PROMOTION

Grow your parking revenue and put a smile on your customers' faces. If they park before 07h30, we offer a GREAT rate. Call us to find out more.

WE BUILD OUR OWN EQUIPMENT

If you've got a small parking operation, we can supply you with our own-build Pay-On-Exit parking system with access control boom and ticket machine. It's cost-effective and excellent quality. We design a package that's right for you - equipment/installation/management and maintenance all included.

Find out more by emailing or calling us. We look forward to hearing from you.

Kind regards,
Hannes Botha
CEO of Karabo Parking Management
